Introduction - Nutritional OEM/ODM Production Line

Our nutritional OEM/ODM factory is an international line dedicated to the health industry, with two subsidiaries for Biological and Pharmaceutical areas. We specialize in high-quality health food contract manufacturing, committed to delivering traceable, reliable health solutions. Through mainstream sales channels, we meet the diverse health needs of global consumers.

Our product range spans multiple series—including nutritional supplementation, immune support, anti-fatigue, gastrointestinal regulation, auxiliary management for hypertension, diabetes and hyperlipidemia, neurological health improvement, vision protection, bone health, skin care, and weight management—to cater to the diverse needs of different consumers.

We've adopted advanced production technologies and equipment to enable end-to-end production traceability, guaranteeing our products meet the highest standards. Meanwhile, we prioritize brand development: clients can launch their own branded products in just 7 days, ensuring market competitiveness and visibility. Our philosophy is customer-centric, and we strive to become a global leader in the health industry. We will continue to embrace an innovative spirit, delivering even higher-quality health products and services to clients worldwide.

5000m ² Factory Area	3000m ² Class 100,000 Clean Workshop
ISO9001 Quality Management System	ISO22000 Food Safety Management System Certification
SGS GMP	SGS HACCP

We could support Pre-Mix as well as any kinds of OEM/ODM request

KEEP INGREDIENTS CO. LTD

No. 2019, Unit 1, Building 10, Yuexiucheng Phase 1, Guodu Xuefu Street, Chang'an District, Xi'an, Shaanxi, 710119, China

Core Advantages

Core Advantage Category	Advantage Details
Industry Background Advantage	Strong background in the pharmaceutical industry
Product System Advantage	Covers 8 dosage forms; supports customization
Quality System Advantage	Achieves consistent quality control standards and quality management system
Technical Standard Advantage	Covers both OEM/ODM fields; one-stop solution
Marketing System Advantage	User-centric; full-process technical service support system

Collaboration Process

Step	Process Details
01	Understand customer requirements via communication
02	Conduct formula R&D & confirm product details

KEEP INGREDIENTS CO. LTD

No. 2019, Unit 1, Building 10, Yuexiucheng Phase 1, Guodu Xuefu Street, Chang'an District, Xi'an, Shaanxi, 710119, China
 Email: info@keepingredients.com Whatsapp: +86 17396654828

Step	Process Details
03	Sign contract & pay advance payment
04	Arrange and start production
05	Procure raw materials & pass inspection
06	Inspect finished products, then ship after qualification
07	Customer acceptance & win-win cooperation

Tablets

Powder

Soft Capsules

Hard Capsules

Pills

Tea Bags

Softgel/Gel Candy Manufacturing Workshop

Daily Production Capacity 3,500,000 pieces

High-capacity pill press

Capsule polishing machine

24-section tumble dryer & fully automatic counting machine

Capsule pressing machine

Alu-plastic-alu blister packaging machine

KEEP INGREDIENTS CO. LTD

No. 2019, Unit 1, Building 10, Yuexiucheng Phase 1, Guodu Xuefu Street, Chang'an District, Xi'an, Shaanxi, 710119, China
